

Madrid 26 de octubre 2015

Dear colleagues,

Last February the 10th, coinciding with The Safe Internet Day, the “Clinical Guide to Cyberbullying for Health Professionals” was launched in Spain. The main aim of this guide is to provide healthcare professionals, especially pediatricians and doctors who treat adolescents, a complete guide with all the necessary information from a multidisciplinary point of view to diagnose, treat and prevent cyberbullying. This practical guide was jointly developed by SEMA (Spanish Society for Adolescent Medicine), Red.es and La Paz University Hospital in Madrid, in collaboration with a multidisciplinary group of experts.

Copy and distribution of this guide is permitted under the terms cited in it. How to refer to it is also specified in the text. Please, if this guide is of interest to you, we would appreciate your collaboration in disseminating it.

**The link is <http://www.adolescenciasema.org/nuevas-tecnologias-de-la-informacion-y-la-comunicacion/>**

For any questions or clarifications, do not hesitate to contact with Dr. M.A. Salmerón Ruiz (Coordinator Guide), [mariasalmeronruiz@gmail.com](mailto:mariasalmeronruiz@gmail.com),

Thank you very much and best regards,

**M<sup>a</sup> Inés Hidalgo Vicario**

Presidenta de la SEMA

**M<sup>a</sup> Angustias Salmerón Ruiz**

J.D. SEMA. Coordinadora Guía
